

What is magnotherapy?

Natural healing – not just for people!

Magnotherapy is nothing new - it has been used for thousands of years to help relieve pain and accelerate the natural healing process. Cleopatra was said to have worn a small magnet on her forehead to preserve her beauty and cure her headaches and in the 16th century Elizabeth I used it to alleviate pain from arthritis - magnetic collars are even worn by animals proving it can't be "all in the mind"!

In recent times magnotherapy has become more popular for two reasons – first, the search for complementary **natural remedies** for conditions that conventional medicine doesn't always help and, secondly, the improvements in magnet technology.

Before you go rushing to your fridge, unstick your 'To Do' list and give that smiling Mickey Mouse a new purpose in life, it's only fair to tell you that he's not really up to the job. The Central Reverse Polarity (CRP) magnets used in Bioflow products are very different and mimic the expensive electromagnetic equipment widely used by the medical profession.

So how does it work?

The human body is designed to heal itself and we all know that life is sustained by the circulation of blood which delivers oxygen and nutrients to every cell in our body. Without a sufficient supply of oxygen and nutrients and the efficient removal of toxins and other waste products, the body ceases to function properly.

Bioflow's manufacturer, Ecoflow plc, believe that applying a magnetic field to blood creates a corkscrew like turbulence. This increased agitation in the blood stream improves the blood circulation making hands and feet feel much warmer, helps prevent blocked arteries and regenerates damaged tissue more quickly. Users of magnotherapy products have reported reduction in aches and pains, an increase in energy levels and accelerated healing along with many other benefits.

Who can benefit from magnotherapy?

Just about everyone! Arthritis, sports injuries, poor circulation, blood pressure, skin complaints, fatigue syndrome as well as general aches and pains are just a few of the many conditions that users claim have been eased by magnotherapy.

From very young children with conditions such as eczema to the elderly who may be suffering with arthritis – from the "man in the street" to the world class sportsman/woman who need more energy and increased performance – from dogs & horses to baby elephants with bad backs – we're all looking for that improved feeling of wellbeing, aren't we?

European legislation prevents us listing all the conditions that our customers claim have been helped using Bioflow on themselves, however, many owners have reported amazing improvement and/or recovery from the following conditions in animals:

- Achilles tendon – severed
- Angina
- Arthritis
- Asthma
- Back pain
- Blood pressure
- Bone spavin
- Broken bones healing
- Bursitis
- Chondritis
- Congenital hip dysplasia
- Cramp
- Cuts
- Diabetes
- Eczema
- Energy
- Epilepsy
- Fibromyalgia
- Fractures
- Haematomas
- Hind limb paralysis
- Hock injuries
- Immobility
- Joint arthrosthesis
- Laminitis
- Ligaments – strained
- Muscular pain & strain
- Oedema
- Osteo-chondritis
- Osteo-arthritis
- Osteoporosis
- Pain – chronic
- Partial paralysis
- Poor circulation
- Post surgical healing
- Quicker healing
- Rheumatism
- Ringbone
- Scar tissue
- Sciatica
- Skin sores/ulcers
- Spinal damage
- Spondylitis
- Sprains
- Stamina
- Strains
- Swollen joints
- Tendonitis
- Thrombosis
- Walking disabilities
- Wound healing

WHY BIOFLOW®?

With more and more success stories hitting the press and both the acceptance of, and demand for, magnet therapy increasing, it is no surprise that more and more companies are entering the market place in an attempt to emulate the success enjoyed by Ecoflow with their Bioflow® products.

The quality of these companies and their products will vary wildly. Some could be quite good - others very poor. As with most things in life though remember “You get what you pay for”.

If someone is seriously considering purchasing a magnetic therapy product we would suggest they ask the following questions:

Which product will give me the best possible chance of getting good results?

The very best form of magnetic therapy is Electro Magnet Therapy as used by the Health Service. The problem is that it is very expensive to purchase and only works when it is plugged in to an electricity supply. There are lots of ordinary magnetic products about, but Bioflow® is the only range of devices that use a unique and patented “central reverse polarity” magnetic system, which mimics the more expensive Health Service equipment at a fraction of the cost. Obviously with Bioflow® we cannot guarantee success but we honestly believe you will be giving yourself the best possible chance.

Is it safe?

It has been accepted by the Medical Devices Agency as a “Medical Device”. This is a legal requirement and Bioflow® was the first magnetic healthcare product in the UK to be recognised by the M.D.A as a Class 1 Medical Device.

Is the product and company genuine?

Ecoflow Plc is a eighteen year old British Company who in 1999 were recognised by the Sunday Times as one of the Top 100 fastest growing privately owned companies in the UK. They are registered as an ISO 9001 and 14001 quality organisation and Bioflow® products carry the coveted CE mark (Conformite Europeene). This confirms that our products are designed and manufactured in compliance with UK regulations to an approved standard recognised throughout the EEC.

What guarantees do I get?

Read the small print and check the true guarantee you are being offered. Each Bioflow® carries a **90-day money back** refund policy (less a 15% handling charge) – 12 months guarantee against faulty parts and workmanship and a **lifetime guarantee** on its magnetic properties.
